

Artist Biography

Blue Dreamy is a Finland-based Visual Artist, born in Hong Kong in 1993. The philosophy of eternal life and belief in internal faith delight Blue's art expression. Her creations contain audiences in a self-reflective space timelessly, often containing ones meaning of life.

Though the magic brush of Blue Dreamy, the dreamy colours in smooth gradient, sparkle the rough textures underneath. This combination sharply expresses Blue's perspective between being an eternal soul and experiencing the short and struggle in physical lives. Blue experiments on mystic spiritual

legacy in multi-dimensions and multi-timelines, to discover the truth, the way and the life. In Blue's 'all as one' philosophy, Blue expresses angles from death to rebirth, trauma to healing, powerless to powerful, human nature to self-sacrifice, mother earth to universe creator.

Blue explores the social empowerment movement of human beings through the relationships between dream, reality, intension, speech and action, to lead audiences make positive changes on daily decisions.
